**Let me help you make your event a perfect one!**

#### **As Your Wedding Planner...**

My goal is to deliver a memorable experience by investing hard work and creativity into every event! I've always admired all aspects of what a good hostess and a good party entail. I love to see people enjoying themselves without worry, whether they are celebrating a wedding, milestone or special life occasion.

#### **My Background...**

My experience with weddings, planning and events began in Lima, Peru. I have a wide range of design and event production experience beginning in 1992 when I was Art Director and Manager for an advertising agency, followed by working in the fine stationary and print field.

I moved to Fernandina Beach in 2003 where I fell in love, got married and had a son. I've been managing events at the Ribault Club for the past five years and pour my passion and dedication for what I do into every event. I will use my experience to make sure your special occasion runs smoothly from start to finish.

#### **Education and Skills...**

Graduate of The Toulouse Lautrec Design Institute. I am creative, organized and a fast problem solver, as well as being authentic, friendly and honest.

I'm an active Calligrapher and am bilingual (Spanish & English).
